Classroom workshop teachers.
Teachers
Administration and maintenance services
"Amigos de San José Obrero" Association
Cooperation families

This social work carried out by the Diocese in Orihuela- Alicante is conceived as a response to the needs of these children living in a situation of social risk.

Our educative commitment is characterized by a specialized attention service developed by professionals being part of the Valencian Community Social Services net.

With your support we will be able to respond to the new necessities that appear among the most disadvantaged.

"BE A PART OF THEIR FAMILY"

We offer you this invitation so that you can also participate in this task of our Orphanate in Orihuela and Elche. With us you can make possible that many children become integrated and happy people.

"We believe in Future"

"I'm on it"

*"An opportunity for those
who do not have it"*

Nobody grows up alone... ... Get closer to him/her... Hold his/her hand...

Children whose ages are between 5 and 18 years old live in San José Obrero.

Our purpose is to integrate those children living in familiar situations of abandonment, desertion, maladjustment, poverty or exclusion.

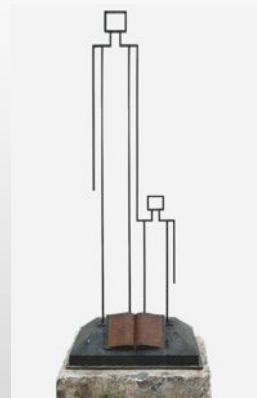

The target is an integral growth carrying out an accompaniment in a personal, social and familiar level.

We rely on the team work performed by professionals and specialists in social education.

Our Diocesan Foundation hosts sixty-six boys and girls distributed in six homes of two Residences (Orihuela y Elche) and three flats as an attempt to recreate a family environment with their educators.

We also dispose of a Day Centre for 24 children who stay here along the day and go home in the evening.

Other non residential programmes we have are:

Temporary foster care in cooperation families.

Ireneo Project, for the enrolment and follow up in the Schools.

Once these children come of age, those who do not

have the family support start an emancipation stage by means of transition flats to the adulthood.

Bearing our children's future in mind, they are trained for an immediate incorporation to the working world

ESO and CF School available to Orihuela and the area.

Programas de Cualificación Profesional Inicial

Talleres de Inserción Sociolaboral

Proyectos de Iniciación Profesional inicial.

We wish these boys and girls of San José Obrero have a future in our society.

Our main purpose is to see how their dreams are fulfilled: a promising future full of opportunities.
